

A Message from our CEO

As Western embraces the future with excitement and prodigious growth, we are honored to celebrate a century of successful projects and dedicated relationships with our clients and colleagues. All made possible by our committed employees and expert personnel - the backbone of our organization - for helping Western achieve nationwide recognition for its outstanding service and quality workmanship. Maintaining a steadfast focus on integrity, safety and family values for 110 years is our biggest accomplishment, and today, continues to be our enduring foundation.

I would like to thank the entire Western team for their dedication and commitment, and to our clients and colleagues for their committed support and confidence over the past 110 years and into the next century.

A handwritten signature in blue ink that reads "Ben Bishop Jr".

Ben Bishop, Jr.
CEO/Chairman of the Board

Western will continue to improve upon our industry recognition as a leading specialty contractor. Our integrity and commitment to delivering valuable services by skilled and motivated employees in a safe manner will drive our success.

Our mission is to provide effective services that protect, restore and maintain buildings and structures throughout the United States.
