

SPRING INTO ROOF READINESS

Roofing:

Warmer weather means...rain—and plenty of it. Spring is the ideal time to get ahead of potential roofing issues and ensure your preventative maintenance plan is working for you. After a long winter, your roof deserves a seasonal checkup.

We help identify potential issues early, maintain proper drainage and safe walkways, address wear and tear, and ensure your roof stays in peak condition, preventing small concerns from turning into costly repairs.

Concrete Sealers
Coating Systems
Crack Injection
Waterproofing
Masonry Brick Repairs
Tuckpointing
Barrier Cable Repair
Expansion Joint Install & Repair
Carbon Fiber Installation
Building Façade Cleaning
Window Sealants

Facades:

Western Specialty Contractors will help you evaluate balconies, facades, and masonry for cracks and deteriorated mortar. Focus on sealing exposed joints and addressing any potential water pooling areas.

Western is an Awarded Vendor through the TIPS Purchasing Cooperative.

As an Awarded Vendor, Western offers TIPS members the opportunity to purchase our services (Roofing, Façade, Restoration, Concrete Restoration, etc.) at competitive pricing without the delay and expense of going out to bid.
